# What is SustainaSeed?

**SustainaSeed** is a sustainable focused purchase and donation type of crowdfunding platform.

We support project owners who deliver sustainable products and services to consumers in order to make sustainability the norm and bring a better society to future generations.

## How Crowdfunding Works

\*The fee for using the platform will be deducted from the deposit to the project owner.

## Features of SustainaSeed

- > Only sustainable projects can participate
- > Connecting with Sustainability Conscious Communities
- > Global Partners (Australian version in preparation)
- > Sustainable strategy support and expert assistance

# Projects with SDGs background

## ① Select the relevant SDGs target

Only projects that are conducting sustainable activities using the SDGs as an indicator are listed. The purpose of the project and how the vision it aims for can contribute to society are clearly indicated.

## ② Telling the Story

Approach supporters by telling a story about your passion on the project.
